MEMORANDUM FOR: General Counsel

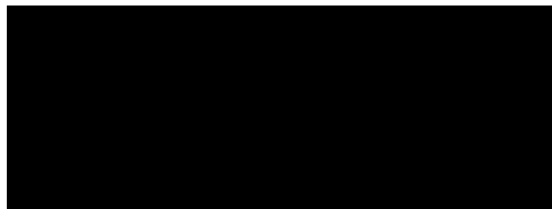

SUBJECT : Salary Differential for Detailed Employees

1. The substance of this file concerns the difficulty confronting CIA in conforming to the administrative measures adopted by the Department of State in their effort to achieve greater economy in the administration of foreign post differential payments--measures which offer no obstacle to State because of their decentralized administration.

2. CIA, on the other hand, operating on the basis of centralized payrolling, cannot conform except with considerable inconvenience, time lags, and severe security considerations, all of which are treated in the attached file.

3. I believe the Agency's position and recommended action are properly stated in the attached draft to the Comptroller, paragraphs 5 and 6. I believe we should proceed as indicated.
